

On 26 Jun, 2013 - June 29, 2013 the last, the SWMA made a working visit to the Research Institute of Engineering and Urban Drainage (REDAC), Universiti Sains Malaysia (USM) and the Penang Municipal Council (MPPP), Penang.

A total of 36 officers were involved in the working visit.

The purpose was to give an insight to the research personnel involved Sand Management Guidelines in Malaysia and learn methods of managing water resources in Penang with regard to studies that

have been done
by the
REDAC
.
